14. **Dispute Resolution; Arbitration**

PLEASE READ THE FOLLOWING SECTION CAREFULLY BECAUSE IT CONTAINS ADDITIONAL PROVISIONS APPLICABLE ONLY TO INDIVIDUALS LOCATED, RESIDENT, OR DOMICILED IN THE UNITED STATES. IF YOU ARE LOCATED, RESIDENT, OR DOMICILED IN THE UNITED STATES, THIS SECTION REQUIRES YOU TO ARBITRATE CERTAIN DISPUTES AND CLAIMS WITH COMPANY AND LIMITS THE MANNER IN WHICH YOU CAN SEEK RELIEF FROM US.

- (a) **Binding Arbitration.** Except for any disputes, claims, suits, actions, causes of action, demands or proceedings (collectively, “**Disputes**”) in which either Party seeks injunctive or other equitable relief for the alleged unlawful use of intellectual property, including, without limitation, copyrights, trademarks, trade names, logos, trade secrets or patents, you and Company (i) waive your and Company’s respective rights to have any and all Disputes arising from or related to these Terms resolved in a court, and (ii) waive your and Company’s respective rights to a jury trial. Instead, you and Company will arbitrate Disputes through binding arbitration (which is the referral of a Dispute to one or more persons charged with reviewing the Dispute and making a final and binding determination to resolve it instead of having the Dispute decided by a judge or jury in court).
- (b) **No Class Arbitrations, Class Actions or Representative Actions.** Any Dispute arising out of or related to these Terms is personal to you and Company and will be resolved solely through individual arbitration and will not be brought as a class arbitration, class action or any other type of representative proceeding. There will be no class arbitration or arbitration in which an individual attempts to resolve a Dispute as a representative of another individual or group of individuals. Further, a Dispute cannot be brought as a class or other type of representative action, whether within or outside of arbitration, or on behalf of any other individual or group of individuals.
- (c) **Federal Arbitration Act.** The enforceability of this Section 14 will be both substantively and procedurally governed by and construed and enforced in accordance with the Federal Arbitration Act, 9 U.S.C. § 1 et seq. (the “**FAA**”), to the maximum extent permitted by applicable law.
- (d) **Notice; Informal Dispute Resolution.** Each Party will notify the other Party in writing of any Dispute within thirty (30) days of the date it arises, so that the Parties can attempt in good faith to resolve the Dispute informally. Notice to Company shall be sent by e-mail to Company at legal@lwf.io. Notice to you shall be by email to the then-current email address in your Account. Your notice must include (i) your name,

postal address, email address and telephone number, (ii) a description in reasonable detail of the nature or basis of the Dispute, and (iii) the specific relief that you are seeking. If you and Company cannot agree how to resolve the Dispute within thirty (30) days after the date notice is received by the applicable Party, then either you or Company may, as appropriate and in accordance with this Section 14, commence an arbitration proceeding or, to the extent specifically provided for in Section 14(a), file a claim in court.

- (e) Any arbitration will occur in San Francisco County, California. Arbitration will be conducted confidentially by a single arbitrator in accordance with the rules of the Judicial Arbitration and Mediation Services (“**JAMS**”), which are hereby incorporated by reference. The state and federal courts located in San Francisco County, California will have exclusive jurisdiction over any appeals and the enforcement of an arbitration award. You may also litigate a Dispute in the small claims court located in the county where you reside if the Dispute meets the requirements to be heard in small claims court.
- (f) **Authority of Arbitrator.** As limited by the FAA, these Terms and the applicable JAMS rules, the arbitrator will have (i) the exclusive authority and jurisdiction to make all procedural and substantive decisions regarding a Dispute, including the determination of whether a Dispute is arbitrable, and (ii) the authority to grant any remedy that would otherwise be available in court; provided, however, that the arbitrator does not have the authority to conduct a class arbitration or a representative action, which is prohibited by these Terms. The arbitrator may only conduct an individual arbitration and may not consolidate more than one individual’s claims, preside over any type of class or representative proceeding or preside over any proceeding involving more than one individual.
- (g) **Rules of JAMS.** The rules of JAMS and additional information about JAMS are available on the [JAMS website](#). By agreeing to be bound by these Terms, you either (i) acknowledge and agree that you have read and understand the rules of JAMS, or (ii) waive your opportunity to read the rules of JAMS and any claim that the rules of JAMS are unfair or should not apply for any reason.
- (h) **Severability of Dispute Resolution; Arbitration.** If any term, clause or provision of this Section 14 is held invalid or unenforceable, it will be so held to the minimum extent required by law, and all other terms, clauses and provisions of this Section 14 will remain valid and enforceable. Further, the waivers set forth in Section 14(b) are

severable from the other provisions of these Terms and will remain valid and enforceable, except as prohibited by applicable law.

15. **Governing Law and Venue**

These Terms will be governed by and construed and enforced in accordance with the laws of the Cayman Islands, without regard to conflict of law rules that would cause the application of the laws of any other jurisdiction. Any Dispute between the Parties arising out or relating to these Terms or its subject matter or formation (including non-contractual Disputes of claims) that is not subject to arbitration will be resolved in the courts of the Cayman Islands.

16. **Severability**

If any term, clause or provision of these Terms is held unlawful, void or unenforceable, then that term, clause or provision will be severable from these Terms and will not affect the validity or enforceability of any remaining part of that term, clause or provision, or any other term, clause or provision of these Terms.

17. **Miscellaneous**

These Terms constitute the entire agreement between you and us relating to your purchase of LWF from us. We may make changes to these Terms from time to time as reasonably required to comply with applicable law or regulation. If we make changes, we will post the amended Terms at <https://lwf.io> and update the “Last Updated” date above. We may also attempt to notify you through the LWF website at <https://lwf.io>. The amended Terms will be effective immediately. We may assign our rights and obligations under these Terms. Our failure to exercise or enforce any right or provision of these Terms will not operate as a waiver of such right or provision. We will not be liable for any delay or failure to perform any obligation under these Terms where the delay or failure results from any cause beyond our reasonable control. Purchasing LWF from us does not create any form of partnership, joint venture or any other similar relationship between you and us. Except as otherwise provided in herein, these Terms are intended solely for the benefit of you and us and are not intended to confer third-party beneficiary rights upon any other person or entity. You agree and acknowledge that all agreements, notices, disclosures, and other communications that we provide to you, including these Terms, will be provided in electronic form.

Exhibit A

Description of Company, Platform, and LWF

1. *Overview of Company*

The Company is an exempted company with limited liability incorporated in United Kingdom and is not subject to supervision or regulation by the Financial Conduct Authority (FCA). Company will have primary responsibility for the provision of Services and for administering the development of certain aspects of the Platform.

The Platform, including the LWF Wallet and LWF Ledger System (each as defined below), was developed and operated entirely by the Company, which provides the Services and administers development of related Platform components.

2. *Overview of Current Platform*

Currently, the Platform consists of an explorer (the “**LWF Explorer**”) and a wallet (the “**LWF Wallet**”). The LWF Ledger System, which is still in alpha testing, is a fast, privacy-focused DPoS based multi-service logistic platform, which is capable of decentralizing all informations of a logistics supply chain (the “**LWF Ledger System**”). Through the Platform, the logistics management system become unassailable, providing a blockchain DPoS standard for logistics, for the first time in the world.

Once delivered, LWF Ledger System will automatically provide a sophisticated matching algorithms and user-friendly interfaces and on our DPoS blockchain, on which we will develop our entire logistic database, alongside the platform itself.

3. *Development of Platform with LWF Functionality and Services*

The Company now intends to introduce new components into the Platform in the form of LWF and an accompanying LWF Wallet (together, “**LWF Functionality**”). LWF is based on the DPoS protocol and conforms to the DPoS standard. As a result of introducing LWF Functionality into the Platform, the Platform will integrate and consist of LWF Functionality, the LWF Wallet, and the LWF Ledger System. LWF will be the utility token for conducting transactions and obtaining Services on the Platform.

Currently, it is anticipated that the primary services (“**Services**”) to be facilitated through LWF and the Platform, as developed and made available by Company, will relate to provide a scalable and secure environment in which we can set all information about shipments, feedback, freight forwarders involved, media management, shipping status and dispute management. Additionally, these services will be protected by an effective anti-fraud system, escrow and dispute management, and will allow anyone to get an active income in

safety thanks to our platform. At the same time, it makes possible for emerging countries, to get goods that would otherwise be impossible for them to receive.

Further details regarding the Platform are described in LWF Whitepaper (“**Whitepaper**”), which is available at: https://www.lwf.io/docs/lwf_whitepaper_en.pdf. The information contained in the Whitepaper and LWF’s website are of descriptive nature only, and do not, unless explicitly incorporated herein, form part of the Terms.

Although Company intends to develop the Platform in the manner generally described above, it reserves the right to modify features, functionalities or development plans in its sole and absolute discretion.

Before the Sale Period Begins, a pool of 22 million LWF will be created and directly pre-allocated to the Company (“**Company LWF**”) for certain uses as described in Section 5 of this **Exhibit B**. A separate pool of 78 million LWF will be created for sale by the Company to purchasers during the Sale Period. All LWF will be of equal value and functionality.

If, during the Sale Period, the Minimum Threshold is reached, but less than 2,000 Bitcoin equivalent has been received by Company, no additional LWF will be sold. Coins will be redeemable 48 hours after the TEC Sale closing. Company reserves the right, at its sole discretion, to disable redeem of LWF after a reasonable amount time. In no case such period will be less than three months.

3. **LWF Price**

The TEC Sale System will accept the following cryptocurrencies: Bitcoin, Ether, Shift, Lisk, Rise, Oxy, Zcoin, Reddcoin, Pivx, RaiBlocks and Ark. For those purchasers who will submitting altcoins rather than Bitcoins, the value of the coin used will be averaged across the whole Sale Period, using Coinmarketcap API functionalities.

The price of the LWF Coin will depend upon the amount raised during the Sale Period, once the Minimum Threshold is reached. Full calculation details and examples can be found on the LWF White Paper at the following URL: https://www.lwf.io/docs/lwf_whitepaper_en.pdf.

There is no sale price for Company LWF, which is created by the TEC Sale System and pre-allocated to the Company before the Sale Period.

4. **Procedures for Buying and Receiving LWF**

In order to purchase LWF during the Sale Period, and to receive the LWF you purchase, you must have an account on the Company website and an LWF wallet that supports the LWF Coin standard. Company reserves the right to prescribe additional requirements.

To initiate a purchase of LWF during the Sale Period, you must send an amount of accepted cryptocurrencies (as set forth in Section 3 of this **Exhibit B**) to an address (the “TEC Sale Address”) that will be provided to you only after you agree to these Terms by clicking the “I Agree with the Terms – View the TEC Sale Address” button at the bottom of these Terms. Sending admitted cryptocurrencies to the TEC Sale Address during the Sale Period triggers an automated operation, pursuant to which the TEC Sale System will automatically calculate and promptly assign corresponding Bitcoin Weighted Value to the LWF Account from which the cryptocurrencies were sent.

Funds must be sent to the TEC Sale Address during the Sale Period in order to purchase and receive LWF. Sending funds to any other address may result in loss of funds. Attempted transactions to purchase LWF will be rejected if cryptocurrencies are sent to the TEC Sale Address at any time before or after the Sale Period.

The TEC Sale System is deployed by Company from the Cayman Islands, and is programmed so that all transactions it executes will be executed in the Cayman Islands. As such, title to, and risk of loss of, LWF created and delivered by the TEC Sale System passes from Company to purchasers in the Cayman Islands.

The remaining 7 million LWF of the Company LWF will be allocated for Bounty Programs.

More info can be found in the White Paper or on Company Website at the URL <https://www.lwf.io>.

Certain Risks Relating to Purchase, Sale and Use of LWF

Important Note: As noted elsewhere in these Terms, the LWF are not being structured or sold as securities or any other form of investment product. Accordingly, none of the information presented in this **Exhibit C** is intended to form the basis for any investment decision, and no specific recommendations are intended. Company expressly disclaims any and all responsibility for any direct or consequential loss or damage of any kind whatsoever arising directly or indirectly from: (i) reliance on any information contained in this **Exhibit C**, (ii) any error, omission or inaccuracy in any such information or (iii) any action resulting from such information.

By purchasing, holding and using LWF, you expressly acknowledge and assume the following risks:

1. Risk of Losing Access to LWF Due to Loss of Private Key(s), Custodial Error or Purchaser Error

A private key, or a combination of private keys, is necessary to control and dispose of LWF stored in your digital wallet or vault. Accordingly, loss of requisite private key(s) associated with your digital wallet or vault storing LWF will result in loss of such LWF. Moreover, any third party that gains access to such private key(s), including by gaining access to login credentials of a digital wallet or vault service you use, may be able to misappropriate your LWF. Any errors or malfunctions caused by or otherwise related to the digital wallet or vault you choose to receive and store LWF, including your own failure to properly maintain or use such digital wallet or vault, may also result in the loss of your LWF. Additionally, your failure to follow precisely the procedures set forth in **Section 4 of Exhibit B** for buying and receiving LWF, including, for instance, if you provide the wrong address for receiving LWF, may result in the loss of your LWF.

2. Risks Associated with the Dpos Protocol

Because LWF and the Platform are based on the DPoS protocol, any malfunction, breakdown or abandonment of the DPoS protocol may have a material adverse effect on the Platform or LWF. Moreover, advances in cryptography, or technical advances such as the development of quantum computing, could present risks to LWF and the Platform, including the utility of LWF for obtaining Services, by rendering ineffective the cryptographic consensus mechanism that underpins the Dpos protocol.

3. Risk of Forging Attacks

As with other decentralized cryptographic tokens based on the DPoS protocol, LWF are susceptible to attacks by **delegates** in the course of validating LWF transactions on the LWF

blockchain, including, but not limited, to double-spend attacks, majority forging power attacks, and selfish-forging attacks. Any successful attacks present a risk to the Platform and LWF, including, but not limited to, accurate execution and recording of transactions involving LWF.

4. *Risk of Hacking and Security Weaknesses*

Hackers or other malicious groups or organizations may attempt to interfere with the Platform or LWF in a variety of ways, including, but not limited to, malware attacks, denial of service attacks, consensus-based attacks, Sybil attacks, smurfing and spoofing. Furthermore, because the Platform is based on open-source software, there is a risk that a third party or a member of the Company team may intentionally or unintentionally introduce weaknesses into the core infrastructure of the Platform, which could negatively affect the Platform and LWF, including LWF's utility for obtaining Services.

5. *Risks Associated with Markets for LWF*

LWF are intended to be used solely on the Platform, and Company will not support or otherwise facilitate any secondary trading or external valuation of LWF. This restricts the contemplated avenues for using LWF to obtain Services or access the Platform, and could therefore create illiquidity risk with respect to LWF you hold. Even if secondary trading of LWF is facilitated by third party exchanges, such exchanges may be relatively new and subject to little or no regulatory oversight, making them more susceptible to market-related risks. Furthermore, to the extent that third-parties do ascribe an external exchange value to LWF (e.g., as denominated in a digital or fiat currency), such value may be extremely volatile and diminish to zero.

6. *Risk of Uninsured Losses*

Unlike bank accounts or accounts at some other financial institutions, LWF are uninsured unless you specifically obtain private insurance to insure them. Thus, in the event of loss or loss of utility value, there is no public insurer, such as the Federal Deposit Insurance Corporation, or private insurance arranged by us, to offer recourse to you.

7. *Risks Associated with Uncertain Regulations and Enforcement Actions*

The regulatory status of LWF and distributed ledger technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether regulatory agencies may apply existing regulation with respect to such technology and its applications. It is likewise difficult to predict how or whether legislatures or regulatory agencies may implement changes to law and regulation affecting distributed ledger technology and its applications, including the Platform and LWF. Regulatory actions could negatively impact the Platform and LWF in

various ways, including, for purposes of illustration only, through a determination that LWF are a regulated financial instrument that require registration or licensing. Company may cease operations in a jurisdiction in the event that regulatory actions, or changes to law or regulation, make it illegal to operate in such jurisdiction, or commercially undesirable to obtain the necessary regulatory approval(s) to operate in such jurisdiction.

8. *Risks Arising from Taxation*

The tax characterization of LWF is uncertain. You must seek your own tax advice in connection with purchasing LWF, which may result in adverse tax consequences to you, including withholding taxes, income taxes and tax reporting requirements.

9. *Risk of Alternative Platforms*

It is possible that alternative platforms could be established that utilize the same open source code and protocol underlying the Platform and attempt to facilitate services that are materially similar to the Services. The Platform may compete with these alternative platforms, which could negatively impact the Platform and LWF, including LWF's utility for obtaining Services.

10. *Risk of Insufficient Interest in the Platform or Distributed Applications*

It is possible that the Platform will not be used by a large number of individuals, companies and other entities or that there will be limited public interest in the creation and development of distributed platforms (such as the Platform) more generally. Such a lack of use or interest could negatively impact the development of the Platform and the potential utility of LWF, including its utility for obtaining Services.

11. *Risks Associated with the Development and Maintenance of the Platform*

The Platform is still under development and may undergo significant changes over time. Although we intend for LWF and the Platform to follow the specifications set forth in **Exhibit A**, and will take commercially reasonable steps toward those ends, we may have to make changes to the specifications of LWF or the Platform for any number of legitimate reasons. This could create the risk that LWF or the Platform, as further developed and maintained, may not meet your expectations at the time of purchasing LWF. Furthermore, despite our good faith efforts to develop and maintain the Platform, it is still possible that the Platform will experience malfunctions or otherwise fail to be adequately developed or maintained, which may negatively impact the Platform and the potential utility of LWF, including its utility for obtaining Services.

12. *Risk of an Unfavorable Fluctuation of Ether and Other Currency Value*

The Company team intends to use the proceeds from selling LWF to fund the maintenance and development of the Platform, as described further in **Section 6 of Exhibit B**. The proceeds of the sale of LWF will be denominated in Bitcoin, and may, at our discretion, be converted into other cryptographic and fiat currencies. If the value of Bitcoin or other currencies fluctuates unfavorably during or after the Sale Period, the Company team may not be able to fund development, or may not be able to develop or maintain the Platform in the manner that it intended.

13. *Risk of Dissolution of the Company*

It is possible that, due to any number of reasons, including, but not limited to, an unfavorable fluctuation in the value of Bitcoin (or other cryptographic and fiat currencies), decrease in LWF's utility (including its utility for obtaining Services), the failure of commercial relationships, or intellectual property ownership challenges, the Platform may no longer be viable to operate and the Company may dissolve.

14. *Risks Arising from Lack of Governance Rights*

Because LWF confer no governance rights of any kind with respect to the Platform or Company, all decisions involving the Platform or Company will be made by Company at its sole discretion, including, but not limited to, decisions to discontinue the Platform, to sell more LWF for use in the Platform, or to sell or liquidate the Company. These decisions could adversely affect the Platform and the utility of LWF that you hold, including LWF's utility for obtaining Services.

15. *Risks Associated with Logistic-Supported Business Models*

The Company's growth and adoption of the Platform may depend on our ability to maintain and expand our existing relationships with freight forwarders and logistics services companies and our ability to develop new relationships with other freight forwarders and logistics services companies within the Platform. As the logistics market generates and develops new concepts and technology, we may incur additional costs to implement a more effective Platform and may have to adjust to new tracking and unforeseeable technologies that could diminish the effectiveness of our DPoS system and P2P logistics platform. Continuing to develop and improve the Platform to keep up with these changes may require significant time and additional investment. If we cannot continue to develop and improve the Platform to maintain competitiveness in light of such changes, the Platform may not remain viable, which could negatively impact the utility of LWF, including LWF's utility for obtaining Services.

16. ***Risks Associated with New and Evolving Laws Impacting Logistics and Logistics Technology***

The logistics and logistics technology ecosystems, and by extension our own Platform, are subject to a variety of federal, state and international laws and regulations, including those with respect to consumer privacy, data protection, consumer protection, content regulation, network neutrality, cyber security, data protection, intellectual property (including copyright, patent, trademark and trade secret laws), defamation, child protection, and others. These laws and regulations, and the interpretation or application of these laws and regulations, could change.

In addition, new laws or regulations affecting the Company could be enacted. As the Platform evolves, Company may be subject to new laws and the application of existing laws to us might change. These laws and regulations are frequently costly to comply with and may divert a significant portion of Company's attention and resources. If we fail to comply with these applicable laws or regulations, we could receive negative publicity and be subject to significant liabilities which could adversely impact the Company, the Platform and LWF, including LWF's utility for obtaining Services.

Additionally, the freight forwarders and logistics services companies within the Platform are subject to industry specific laws and regulations or licensing requirements. If any of these parties fails to comply with any of these licensing requirements or other applicable laws or regulations, or if such laws and regulations or licensing requirements become more stringent or are otherwise expanded, it could adversely impact the Platform and LWF, including LWF's utility for obtaining Services.

17. ***Unanticipated Risks***

Cryptographic tokens such as LWF are a new and untested technology. In addition to the risks included in this **Exhibit C**, there are other risks associated with your purchase, holding and use of LWF, including those that the Company cannot anticipate. Such risks may further materialize as unanticipated variations or combinations of the risks discussed in this **Exhibit C**.
